Scratch Art Inspires Posture Carpet Tile

Mohawk Group's Scratch Art Design Contest solicited the artistic talents of K-12 students nationwide to create the next design in Mohawk's Mixology Collection. A panel of seasoned carpet designers chose the best of the best from the extensive pool of creative submissions.

Ultimately, Andi Rozelle of Holy Spirit Preparatory School in Atlanta was selected as the winner of the competition. Her dynamic design translated beautifully into the newest Mixology pattern, Posture. Carpet tile featuring Andi's original design was donated back to her school library where it has created a brighter learning environment for all who encounter and interact with the space.

Mixology Collection

A lesson in flexibility, resourcefulness and beauty

- No 2 tiles are alike but work flawlessly together on your floor
- All installation methods available
- Diverting useful materials from the waste stream is good for the environment
- All styles are available in Quickship*

The styles in our Mixology Collection were designed to celebrate the breadth of color available in today's carpet market while providing the customer with the simplest installation and flooring management possible. The patterns are composed of 5 of the most popular neutral colors mixed in with a kaleidoscope of randomly chosen end-of-lot yarns. These multi-colored yarns are diverted from our excess yarn lots and given new life in strikingly beautiful carpet rather than being down-cycled into other industry products.

The beauty of this product is in the fact that the embedded pattern and the neutral color remain consistent from tile to tile while the accent colors change, making each tile unique. It is this subtle color variation that contributes to the ease of installation by eliminating concerns about matching dye lots and limited installation methods.

The Mixology Collection is the perfect solution for those seeking to celebrate color as well as those who recognize the positive environmental impact that comes from redefining beautiful with repurposed yarn.

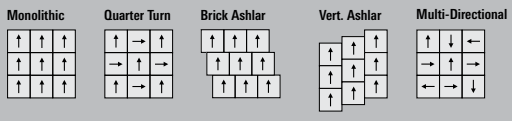
Styles are designed to celebrate the breadth of multi-colored yarn and are paired with a consistent neutral background. Each tile is uniquely colored of repurposed yarns and will vary due to the nature of the random yarns selected for the product; however, each work flawlessly together in a random, mergeable installation. Colors may vary from brochure and sample materials and may not be representative in actual production.

Installation Instructions:



Mohawk Group

Mohawk Industries, Inc. warrants its adhesives for the life of the original installation only when a Mohawk Industries style (product) is installed. Mohawk's floor preparation procedures must be followed to ensure that the substrate has been prepared properly. Failure to use Mohawk Industries adhesives or to follow Mohawk's floor preparation procedures will void all lifetime adhesive warranties. Please contact your local Sales Representative for installation guidelines.

These patterns contain inherent characteristics which may result in pattern run off and/or pattern appearance variations at the seams or tile edges (darker or lighter pattern lines). These characteristics are inherent in the patterns and are not manufacturing defects. Consideration to these characteristics should be given when selecting an installation method.

Chair pads are recommended under office chairs with roller casters to preserve appearance retention, act as a deterrent toward delamination and to prevent premature or accelerated wear. Walk-off tiles from the Tuff Stuff II Collection are recommended at entryways to reduce soiling.
